Joint Safety Committee Mission

The Safety Committee promotes excellence in safety and health by:

- Developing and implementing programs to meet the unique needs of the aggregate and ready mixed concrete industries
- Distributing information on regulatory compliance and administration of health and safety programs, including training
- Providing operational input on safety and health issues to MSHA & OSHA as required
- Communicating and working with other committees in CRMCA & CRMCA, as well as NRMCA, NSSGA and other state association partners
